

Warehouse Handover Packet

West Annex - Shift Handover

This packet is used when a tote moves from the receiving dock to the overnight shelf.

Transfer steps

1. Scan the dock marker.
2. Seal the amber tote.
3. Attach the handover card.
4. Record the freezer reading.
5. Sign the turnover ledger.
6. Store the tote in bay C.

Shift Coverage Matrix

Shift | Lead | Backup | Verification

Day | Morgan | Priya | signed

Swing | Leon | Marta | signed

Night | Asha | Ken | waiting

Box 2 reminders

- Escalate any red tag older than 12 hours.
- Replace damaged zip ties.
- Use the amber tote for cold-chain loads.

Figure 1

Amber square dock marker before sealing.

The marker sits beside the tote before the seal is crimped.

Final checks

Visitors must countersign the cold-room log.

Archive the signed packet in the handover cabinet.

Ledger notes

Record tamper-seal color in the ledger.

Record any bay changes before the tote leaves the dock.
